

Environmental policy statement

Vibro-Meter Inc is committed to enhancing customer satisfaction by providing innovative products and services and operating our facility in an environmentally sound and responsible manner. Our aim is to protect our employees, community and the environment through conservation of natural resources, reduced energy consumption, smart engineering to reduce environmental impact throughout our products' lifecycles and pollution prevention.

This goal will be achieved through compliance with regulatory requirements, continuous improvement of our environmental management system and processes, identification and management of environmental goals and objectives and through the participation of all our employees.
